2. REQUISITIONING TELEPHONE SERVICE AND CHANGES THEREIN

In order to expedite telephone installations and insure accuracy of mail and telephone information, it is essential that all listing information be supplied at the time requisitions for new, changed or discontinued service are issued.

The form to be used for supplying the Telephone and Telegraph Section with the above is AD 236 "Mail and Telephone Information". This form should be properly prepared and attached to requisitions requesting telephone service.

3. WHEN MAKING CALLS

Obtain the correct number from the directory before dialing.

Do not dial until you hear the dial tone, a steady humming sound.

Turn the dial until your finger reaches the finger stop, then release. Do not try to accelerate dial return or wrong numbers will result.

If you make a mistake when dialing, hang up the receiver a few seconds and begin again.

If the number dialed is busy, a rapid intermittent sound will be heard. Hang up the receiver, wait a reasonable time and dial again.

If the number dialed is not busy, a slow intermittent sound will indicate that the number is being rung.

CALLS TO BELTSVILLE RESEARCH CENTER

Dial the Code Number 837 to reach employees located at the "Center".

Dial WArfield 4400 to reach employees located at the Bureau of Plant Industry, Soils and Agricultural Engineering. (Consult paragraph #6.)

When an operator answers, give her the extension number, or the name of the person desired.

5. CALLS TO OTHER GOVERNMENT DEPARTMENTS

- Do not call other Government departments or agencies by their central office number.
- Where direct tie lines are provided to other Government departments or agencies, Code numbers are dialed to reach these organizations.
- A list of direct tie lines to other Government organizations is shown on the back cover page of this directory, together with their respective Code numbers.
- When dialing the Code "O" give the operator the name of the Agency desired.
- Where direct lines are not provided, calls are routed through the Inter-departmental (Government) switchboard, which is reached by dialing Code number 80. When the inter-departmental operator answers ask for the Government department with which you desire to be connected.

6. CALLS TO OUTSIDE NUMBERS

EXAMPLE: Call to DIstrict 6713

Remove receiver and listen for dial tone. Dial the figure "9" and listen for second dial tone; then dial the first two letters of the Central Office name, and all of the numbers following. If you receive the "busy" signal, hang up for a short interval and dial again.

7. SIGNALLING THE OPERATOR TO TRANSFER CALLS

- Calls originating on dial equipment in the Department of Agriculture cannot be transferred by the operators.
- On incoming central office calls and other calls handled by the operator, you may signal the operator to transfer the call to another telephone or for any purpose by moving receiver hook slowly up and down.

LONG-DISTANCE CIRCUITS ARE CROWDED

MAKE LONG-DISTANCE CALLS ONLY WHEN ABSOLUTELY NECESSARY

PLAN YOUR MESSAGE BEFORE CALLING

MAKE YOUR CONVERSATIONS BRIEF
